About Me

A highly motivated MERN Stack Developer with hands-on experience in MongoDB, Express.js, React.js, and Node.js. Passionate about building clean, responsive, and scalable web applications using modern UI/UX principles. Seeking opportunities to contribute to real-world projects and grow as a professional Full Stack Developer.

Experience

MERN Stack Developer (Self Projects)

6 Months

- Built multiple full-stack web applications using MERN stack
- Developed responsive UI using React.js
- Created REST APIs using Node.js & Express.js
- Implemented CRUD operations with MongoDB
- Used Git & GitHub for version control

Projects

- **Car Doctor Resource** – Full-stack service booking system
- **ParcelPro** – Parcel management web app
- **A-Gardening Community** – Community-based platform
- **Medical Appointment App** – Appointment booking system
- **Coffee Subscription Website** – Subscription-based React app
- **English Janala** – Vocabulary learning web application
- **E-Commerce Project** – Basic online store system
- **Auction Gallery** – Product auction platform
